

Floor Maintenance & Cleaning Specification

PUR Vinyl Sheeting & Tiles

General Guidelines:

PUR vinyl sheeting and tiles feature a cross-linked high quality polyurethane reinforcement. The floor should not be stripped or sealed. Never use a Black Pad on a PUR floor.

NOTES: We highly recommend an effective barrier/entrance matting system to reduce the dirt tracked into the building.

Post Installation & Periodic Cleaning

Step 1:

- All dust, sand and stones must be removed prior to scrubbing. This can be done with either a vacuum cleaner or by sweeping with a disposable cloth system such as **Masslinn® Tool** and **Masslinn® Cloths**.
- Scrub the floor using a solution of a neutral detergent such as **Proclean** diluted according to manufacturer's instructions, with a **Low Speed Scrubber** fitted with a **3M Blue Cleaner Pad**. For detail work, use an edge cleaning tool with blue pad.

Step 2:

- Vacuum the dirty **Proclean** solution from the floor with a **Wet & Dry Vacuum Cleaner**. The floor should be thoroughly rinsed with clean water to remove any remaining chemical residue.
- If no machine is available, remove the solution from the floor using a mop and mopping system. The water and mop must be changed frequently so as to remove as much chemical residue as possible from the floor.

Recommended Products:

Masslinn Tool & Masslinn Cloths

Vileda Microfibre Flat Mopping Unit

Proclean Neutral Detergent

Viper Low Speed Scrubber & 3M Blue Cleaner Pad

Viper Wet & Dry Vacuum Cleaner

Daily Maintenance:

1. Dust sweep with a disposable cloth system such as **Masslinn® Tool** and **Masslinn® Cloths**.
2. Spot mop wet sticky dirt with a double/single bucket mopping unit with the correct dilution of neutral detergent such as **Proclean**. For optimal results, make sure that the rinsing water is changed regularly.
3. For larger areas, wash the floor using a **Nilfisk Automatic Scrubber-Drier**, **3M Red Buffing Pad** and low foam neutral detergent such as **Proslip**.
4. For a sheen, buff using a high speed machine with **Probuff** spray buff & **Red 3M Floor Pad**. Alternatively, a **Green Eco Brilliance Diamond Pad** can also be used in conjunction with an autoscrubber or buffing machine.

Periodic Cleaning:

The floor may require periodic scrubbing in high traffic areas. In such cases, follow the aforementioned Post Installation and Periodic Cleaning guidelines.

Cleaning of Equipment:

1. All equipment should be cleaned thoroughly after use.
2. Pads should be rinsed or vacuumed depending on soiling.
3. Single disc machines must be wiped with a damp cloth and disinfectant if needed.
